Change log

Date	Change description
November 8, 2018	Initial release.

Introduction

This document provides the following information for FortiAP version 6.0.3:

- [Supported models](#)
- [What's new in FortiAP 6.0.3](#)
- [Upgrade information](#)
- [Product integration and support](#)
- [Resolved issues](#)
- [Known issues](#)

For more information on upgrading your FortiAP device, see the [FortiWiFi and FortiAP Configuration Guide](#) in the [Fortinet Document Library](#).

Supported models

FortiAP version 6.0.3 supports the following models:

Model	Build
FAP-14C, FAP-21D, FAP-24D, FAP-25D, FAP-112D, FAP-221C, FAP-222C, FAP-223C, FAP-224D, FAP-320C, FAP-321C	0027

What's new in FortiAP 6.0.3

The following is a list of new features and enhancements in FortiAP version 6.0.3:

- Support for Change of Authorization (CoA) with RADIUS on local-standalone VAP.
- WiFi region and country code adjustments:
 - Channel 165 added to region "P".
 - Channels 120, 124, 128, and 144 added to region "T".

Upgrade information

Upgrading from FortiAP version 6.0.2

FortiAP 6.0.3 supports upgrading from 6.0.2.

Downgrading to previous firmware versions

FortiAP 6.0.3 supports downgrading to 6.0.2.

Firmware image checksums

The MD5 checksums for all Fortinet software and firmware releases are available at the [Fortinet Support](#) website. After logging in select **Download > Firmware Image Checksums**, enter the image file name including the extension, and select **Get Checksum Code**.

Supported upgrade paths

To view all previous FortiAP versions, build numbers, and their supported upgrade pathways, see the following Fortinet Cookbook link:

<http://cookbook.fortinet.com/supported-upgrade-paths-fortiap/>

Product integration and support

FortiAP 6.0.3 support

The following table lists FortiAP version 6.0.3 product integration and support information.

Web Browsers	<ul style="list-style-type: none">• Microsoft Internet Explorer version 11• Mozilla Firefox version 59• Google Chrome version 65• Safari version 9 <p>Other web browsers may function correctly, but are not supported by Fortinet.</p>
FortiOS	6.0.3 and later
FortiExplorer Lite (iOS)	2.1.0 (models FAP-21D, 24D, 112D, and 320C only)

We recommend that FortiAP firmware versions match the respective FortiOS versions, when available.

Other variations of FortiOS and FortiAP versions may technically work for the lowest common feature set. However, if problems arise, our Fortinet Support team will ask you to match the versions before troubleshooting, according to our recommendation.

Resolved issues

The following issues have been fixed in version 6.0.3. For inquiries about a particular bug, visit the [Fortinet Support](#) website.

Bug ID	Description
397938	DHCP lease time of NAT-mode local-standalone VAP was not being saved by FortiAP
467181 495276	FortiAP would not stop generating station-locate logs even after setting disabled in FortiGate
510212	WiFi client could not access Internet after associating with a VAP with open security
518716	The format of the RADIUS Attribute "Called-Station-ID", used in local-standalone VAP, has been changed from "BSSID:SSID" to "AP-basemac:SSID"
521471 521710	Fixed two rare instances of kernel panic

Known issues

The following issues have been identified in version 6.0.3. For inquiries about a particular bug, visit the [Fortinet Support](#) website.

Bug ID	Description
N/A	None.
